

**Tanja Balažič Peček**

**Tanja Balažič Peček** se je po osnovni šoli v Kočevju in srednji farmacevtski šoli v Ljubljani preizkusila v lekarništvu v lokalni Lekarni. Po prehodu v farmacevtsko industrijo je l. 2001 diplomirala iz organizacije in managementa ter 2008 specializirala iz projektnega managementa na Fakulteti za organizacijske vede Univerze v Mariboru. Izpopolnjevala se je na farmacevtskih in okoljevarstvenih področjih, na področju GMP (Good Management Practice) in uvajala IT sisteme za obvladovanje proizvodnih dokumentov in ISO 14001 v srednjem podjetju. Izziv so ji predstavljali koordinacija krovnih projektov informatizacije proizvodnje z nadzornimi sistemi - MES (Manufacturing Execution System) in EBR (Electronic Batch Record) v velikem podjetju. Po zunanjetrgovinski registraciji 2010 je dejavna na področju regulativne skladnosti, specializirala se je za poreklo blaga ter obvladovanje zunanje trgovske politike v SAP ZT modulu. Njeno raziskovalno zanimanje je človek v organizaciji, nove paradigme organizacije z etičnimi koncepti in načela »autopoiesis« v organizacijskem in družbenem okolju. Na Fakulteti za organizacijske študije (FOŠ) pripravlja disertacijo s področja novih paradigem organizacijskih teorij. Je avtorica prispevkov na znanstvenih konferencah in člankov v strokovnih in znanstvenih revijah. Je članica Academy of Management (AOM).

**Tanja Balažič Peček** finished elementary school in Kočevje and secondary pharmaceutical school in Ljubljana, then tested herself in the pharmaceutical field in a local pharmacy. After the move to pharmaceutical industry she graduated from organization and management in 2001 and specialised in project management at the Faculty of Organizational Sciences in Maribor in 2008. She improved her knowledge in pharmaceutical end environment protection area, in GMP (Good Manufacturing Practice) and IT, implementing systems for controlling production documents and ISO 14001 in a medium-sized company. Her challenges were coordination of main projects of production informatisation with supervisory systems – MES (Manufacturing Execution System) and EBR (Electronic Batch Record) in a big company. After external trade registration in 2010 she is active in the field of regulative conformity and specialised in origin of goods, and containment of external trade policy inside SAP system. Her research interest is a human being, new paradigms of organization with ethical concepts and principles of »autopoiesis« in the organizational and social environment. At the Faculty for Organizational Studies (FOŠ) she is preparing a dissertation from the area of new paradigms of organizational theories. She is the author of contributions at scientific conferences and articles in professional and scientific journals. She is a member of the Academy of Management (AOM).
