

## **Mag. Vinko Bogataj**

**Vinko Bogataj** je po izobrazbi univ.dipl.ing. strojništva in mag. managementa kakovosti. Končal je tudi usposabljanje za managerja sistemov kakovosti po EOQ shemi. V svoji dosedanji praksi si je pridobil praktične izkušnje na področju razvoja orodij in naprav, avtomatizacije proizvodnih sistemov, razvoja ventilatorjev, meroslovja, varnosti proizvodov, naprav za eksplozijsko ogrožena okolja in sistemov vodenja kakovosti. Vodil je uvedbo sistemov vodenja kakovosti po standardu ISO 9001 v družbe IMP Klimat, Uniklima, Hidria BH in Hidria inženiring. Trenutno deluje kot samostojni raziskovalec.

**Vinko Bogataj** is univ.dipl.ing. of mechanical engineering and MSc. of quality management. He also completed the quality systems manager training under the EOQ scheme. In its current practice, he gained practical experience in the development of tools and devices, automation of production systems, the development of the fans, metrology, security of the products, devices for explosion-risk environment and quality management systems. He led the introduction of quality management systems according to ISO 9001 in IMP Klimat, Uniklima Hidria Hidria BH and engineering. He currently works as an independent researcher.
