Cilji in kompetence:

- Sposobnost identificiranja danega raziskovalnega problema, njegove analize ter možnih rešitev.
- Sposobnost prepoznavanja paradigmatičnih premikov in zmožnost oblikovanja sodobnih inovativnih konceptov in pristopov, namenjenih izboljševanju kakovosti življenja posameznikov, organizacij in skupnosti.
- Sposobnost obvladanja standardnih metod, postopkov in procesov raziskovalnega dela na področju razvojnega menedžmenta.
- Sposobnost uporabe pridobljenega teoretičnega znanja v praksi.
- Avtonomnost v svojem raziskovalno strokovnem delu.
- Zavezanost profesionalni etiki.
- Sposobnost oblikovanja in implementacije izvirnih znanstvenih rešitev danih problemov in priložnosti na področju razvojnega menedžmenta.
- Sposobnost izvirnega reševanja konkretnih raziskovalnih problemov na različnih področjih razvojnega menedžmenta kot tudi v okviru sorodnih disciplin.
- Sposobnost predstavitve pridobljenih znanstvenih izsledkov v obliki publikacij v mednarodni znanstveni periodiki.
- Razumevanje teoretičnega ozadja razvojnega menedžmenta.
- Sposobnost opredelitve ključnih elementov razvojnega menedžmenta na različnih stopnjah.
- Sposobnost razumevanje širšega konteksta razvojnega menedžmenta.
- Sposobnost kritičnega vrednotenja razvojnega menedžmenta in njegovih omejitev.
- Sposobnost znanstvena in metodičnega analiziranja razvojnega menedžmenta.

Objectives and competences:

- The ability to identify a given research problem, its analysis and possible explanations/solutions.
- The ability to recognize paradigm shifts and to design contemporary innovative concepts and approaches designed to improve the quality of life of individuals, organizations, and communities.
- The ability to apply and use standard methods, procedures and processes of research to the field of development management.
- Ability to use theoretical knowledge in practice.
- Autonomy in one's own professional research work.
- Commitment to professional ethics.
- Ability to design and implement original scientific answers to problems and opportunities in the area of development management.
- The ability of solving original and concrete research problems in various areas of development management and its related disciplines.
- The ability to present obtained scientific research results in the form of publications in international scientific journals.
- Understanding of theoretical background development management.
- Ability to define basic elements of development management at different levels.
- Ability to understand broader context of development management.
- Ability to critically assess development management and its limitations.
- Ability to scientifically and methodically analyse of development management.

Predvideni študijski rezultati:

Znanje in razumevanje: Študent bo:
<ul style="list-style-type: none"> – Obvlada kompleksno analizo fenomenov s področja sodobnih pristopov k razvojnemu menedžmentu. – Demonstrira poznavanje najnovejših teoretskih pristopov pri obravnavi razvojnega menedžmenta. – Demonstrira obvladovanje ključnih raziskovalnih metod, ki so relevantne za preučevanje tematik s področja razvojnega menedžmenta. – Izraža sposobnost samostojnega raziskovalnega dela na področju razvojnega menedžmenta. – Je sposoben prezentacije svojih raziskovalnih rezultatov v znanstvenih publikacijah. – Je sposoben artikulacije ključnih vprašanj in problemov s področja razvojnega menedžmenta. – Sposoben opredeliti in razumeti pojem razvojnega menedžmenta. – Identificirati ključne vidike razvojnega menedžmenta. – Razumeti omejitve sodobnih pristopov k razvojnemu menedžmentu. – Sposoben oblikovanja razvojne strategije na različnih nivojih podprte s kompleksnimi analizami.

Intended learning outcomes:

Knowledge and understanding: The student will:
<ul style="list-style-type: none"> – Master complex analysis of phenomena in the field of development management. – Demonstrate knowledge of the latest theoretical approaches of development management. – Demonstrate mastery of key research methods that are relevant for the field of development management. – Express ability of independent research in the field of development management. – Be capable of presenting research results in scientific publications. – Be able to articulate key issues and problems in the field of development management. – Able to define and understand the term "development management". – Identify key aspects of development management. – Be able to understand limitations of contemporary approaches to development management. – Be able to prepare development strategies at different levels, supported by complex analyses.

Metode poučevanja in učenja:

<ul style="list-style-type: none"> – Predavanja z aktivno udeležbo študentov (razlaga, diskusija, vprašanja, primeri, reševanje problemov). – Seminarsko delo (refleksija izkušenj, projektno delo, timsko delo, metode kritičnega mišljenja, diskusija, sporočanje povratne informacije, diskusija, dodatna razlaga, obravnava specifičnih vprašanj). – Individualno delo študentov (samostojen študij literature, priprava izpitne naloge).
--

Learning and teaching methods:

<ul style="list-style-type: none"> – Lectures with active student participation (discussions, talks, questioning, cases, problem-solving). – Seminar papers in connection to practice (reflections from experience, project work, teamwork, methods of critical thinking, talks, providing feedback, social games, excursions). – Individual and group consultations (discussions, additional explanations, discussing specific questions).
